

Wendell Reich Hunter's Quest International

Gras Ranch Price List 2011

Gras Ranch is 145 miles south of Windhoek, the capital of Namibia. The hunting territories cover over 125,000 contiguous acres, of arid bush land with savannah. The main house, which was built in 1906, is a luxurious and comfortable haven. In addition to the main house, we have bush camping on the bank of the Fish River, which runs through the ranch for ± 17 miles (28km). Hunters can sit at the fire on the riverbank and enjoy BBQ while watching the Southern Hemisphere stars. The ranch is blessed with a generous number of waterholes, rivers and open grasslands. Gemsbok (Oryx), Hartebeest, Zebra, Springbok, Wildebeest, Blesbok and Kudu are amongst the wildlife species that profit from this abundance. You can see this magnificent array of wildlife congregating near the river, especially during the dry winter months, May through September.
